

BUFFALO VALLEY RAIL TRAIL

LEWISBURG DETAIL MAP WITH INTERIM ON-ROAD CONNECTOR

Until PennDOT provides approval for the proposed at-grade signalized crossing of Rt 15 with protected median at the trail alignment, cyclists and pedestrians are expected to use the existing road and sidewalk network to cross the highway. One possible connection is depicted on this map. As always, when leaving the trail, continue at your own risk and follow all applicable laws and ordinances. When using the pedestrian lights at this or the St Mary St intersection, please be aware that recent changes to the signal design result in left turning cars on occasion conflicting with the pedestrian walk interval. Stay alert!

KEY

-  Parking Area
-  Restrooms (in season)
-  Portable Toilet
-  Phase 1 Trail
-  Interim On-Road Connector
-  Phase 2 Trail Extension
-  Mile Marker
-  Picnic Area
